Lord Jesus ,we lift up before you Christians who are suffering throughout the world as victims of violence. We pray that you would draw close to those who have suffered at the hands of regimes whose policies are opposed to Your Gospel and of communities that have chosen to persecute your people. We ask that you would preserve Christian believers around the world from violence, yet remember your words that we should expect servants to suffer in like manner to the Master. Please enable your saints to glorify You by their testimony.
